REPORT OF THE
SCHOOL DEPARTMENT

To the Citizens and School Committee:

Upon Mr. Hull's retirement after the close of the school year in June, a re-adjustment of the towns making up the Union including North Kennebunkport was suggested by the State Department. Due to abnormal war conditions, the School Committee felt that this was not the time to make the change and protested to the Department. As a result of various discussions between the State officials and the School Committee, it was decided to appoint an Agent for your schools until such time as a permanent re-adjustment could be agreed upon.

I was asked by the Committee and the State Department to act as your agent and gladly accepted for I have been in school work for 21 years and like the work.

My first task, upon appointment, was to meet the teachers and with their help plan this year's work. We agreed that there was considerable variation in the equipment and offerings of the five schools of North Kennebunkport and our work this year has been aimed at equalizing the schools of the town. Textbooks have been placed in the schools where poorer equipment was noted and by the end of this school year all the schools should be equally well supplied with books.

In the matter of supplies, including seats, war-shortages have made a great many things needed impossible to obtain. Products available now are so high in price that it appeared to both the teachers and to me that it would be well to struggle along with our old equipment in many cases until after the war. To that end a considerable sum of money has been left in the Supply account to be used when the market is more favorable for purchases.

TEACHERS

Well over 100 schools in Maine did not open last Fall due to the inability of the towns to find available teachers at the pay offered. Here in North Kennebunkport a wise move was made by the voters last March in appropriating enough money so that

we could offer \$1080 as an annual salary for our teachers. As a result, we have been able to elect good teachers and they are contented in knowing that their contracts are as good as many in graded schools and better than a great number of rural school contracts.

After experience of eleven years in school unions where rural schools were predominate, I am glad to report to you that your corps of teachers in this town measure up to any group I've been associated with. Special mention should be made of Miss Charlotte Cole, who turned down several teaching opportunities to help out in her home town during a critical period. In Mrs. Talbot and Mrs. Bartlett at the Burnham schools are a team of teachers that it would be hard to match anywhere. Miss Day, Mrs. Chappell and Mrs. Smith are all experienced and capable. Miss Snell in the Iron Bridge school is a beginning teacher of unusual promise while Mrs. Littlefield, who took over Mrs. Miller's school after her resignation, is mature and well liked there.

FINANCES

All accounts are in good shape. In the Common Schools we raised \$5,750 last year and that sum, with the \$612 balance of a year ago, brought us through the year with a balance of \$623. I would suggest the same appropriation for next year.

The high school tuition account appropriation of \$2,000 a year ago added \$300 to the unexpended balance in this account. I suggest an appropriation of \$1,700 in this account which should be just enough to carry us through. My opinion is that we would be wise to carry along the large balance in this account and use it up when the inevitable transitional period comes when it will be harder to pay taxes than it is today.

The textbook appropriation of \$150 was used with part of the equalization funds and is about right for next year. Supplies were brought from the Equalization Funds.

CONCLUSION

In conclusion, may I express my own and the teachers' appreciation of the fine co-operation received from the school committee and the parents of the children. All realize that carrying on schools during war-time presents abnormal situations varying from juvenile delinquency to gasoline and tire shortages. It is

the hope of all that we can bring our children through these critical times with a wider understanding of the world as a whole so that they may outstrip us when it becomes their turn to map out the destinies of mankind.

Respectfully submitted,

HARRY E. LEWIN, Agent.

REPORT OF PUBLIC HEALTH NURSE

To the citizens of the town of North Kennebunkport,
I submit the annual report for the year 1943:

Early Diagnosis Campaign pamphlets and posters on
Tuberculosis were distributed to the schools and other
public buildings in town.

Many visits were made to homes of school children
who were greatly in need of vision, throat and dental
corrections.

Special inspections were made in the schools for evi-
dence of pediculosis.

The following is a report of the annual health inspec-
tions for 1943:

Number of pupils inspected 131

Defects found:

Teeth	65
Throat	21
Vision	12
Skin	1
Posture	1
Pediculosis	1
Unclean teeth	23
Corrections during year:	
Teeth	39
Throat	2
Vision	7
Seven Point pupils,	62

The large number of corrections done this past year is very gratifying.

In submitting my first annual report for the York bounty Health Service, I wish to thank the teachers and parents for their cooperation and keen understanding of the importance of the work. It has been a pleasure to work with the children since the appreciation of the parents has been reflected in their attitude toward their health.

Respectfully submitted,

NELLIE P. SAWYER, R. N.,
Public Health Nurse,
York County Health Service.
