HEALTH OFFICER'S REPORT

For Year ending February 16, 1927

Three cases of Whooping Cough reported, being the only contagious disease this year.

CHARLES E. DUERELL,
Health Officer,
Town of North Kennebunkport.

REPORT

OF THE

Superintendent of Schools

To the Honorable Superintending.; School Committee,
Board of Selectmen, and Citizens of North Kenne-
bunkport;

Ladies and Gentlemen;

I have the honor to submit for your consideration, my second annual report of schools. Education is an investment in human values. You register your belief in these human values when you appropriate means for carrying forward the schools. The success or failure of the public school is a vital public concern. The quality of education offered and the extension of education to include every child can alone vouchsafe the future. The present complexity of life demands more and better preparation with every year. In a world of educational advance, your youth should have their vital share. What they will receive, in the way of education for this succeeding year, you determine at your annual town meeting. The mature and solid judgment of your citizens should register your desire for better schools when the children of your homes are to be the recipients of your appropriations.

Citizens of North Kennebunkport, your children are your best possessions. Do for them all that you can do in the way of encouraging education and fostering of those forces which eventuate in ideal and character. The schools are a priceless heritage. They are actively shaping the future of your towns and all things dear and sa—

cred in your traditions. Your thoughtful consideration, therefore, of this report is solicited that perchance some emphasis crowded into its narrow compass may help" you in balancing your budget in favor of needs that are real and demanding.

Teachers

Your teachers have this year made progress in the art of teaching. They have given most industrious service and have shown untiring interest in the work which they have attempted.

This year I have given educational tests to all your children in arithmetic and an effort, has been made to standardize this work more nearly with the State Course of Study. It is with some personal pride that I can point out to you that you have in one of your schools a pupil who is, I think, mathematically gifted beyond any pupil of like grade among the 2000 children over whom I have supervision. You extend encouragement and opportunity to develop to the full stature this God-given ability of these gifted children by upholding the work of your schools. Some of these exceptional children are in your midst. There is another child of exceptional ability in composition work in your schools. It has been my constant wish and the greatest desire of her teacher to see her given a chance for growth in better and fuller measure. We think that her contribution might be illustrious if it can be fully developed. I am a believer in preaching greatness to your boys and girls, and to you. Your schools should have more aids to teaching in such subjects as primary reading. The teachers in reading could well use much more material than they now have.

I have visited the Alewife School where several of your children attend. This school is well taught and the children seem to be doing good work.

Repairs

Considerable repair work was done at the schools this past year. The North Chapel School was so changed inside that it has been a constant delight to the teacher and pupils throughout this year. There was, also, a considerable expenditure of money at the Burnham School

This year a flagpole should be set in the yard at the North Chapel School. I would recommend that this pole be constructed so as to be bolted between oak shoulders, thus allowing the lowering of the pole when the halyards need replacing. It would eventually save expense and the flag could be flown with less interruption.

Text Books

The introduction of new reading books was started in some grades this year and will be carried out as new books are required.

The need for new geographies was expressed by the teachers and the books were supplied. These were the most modern that could be procured. The School Committee have had these books under consideration for some time and took pains to personally examine and read them, in part, before their adoption. The Chairman of the School Committee, Mrs. Sarah Talbot, having been a trained and experienced teacher, has rendered a great service to your schools in every matter of importance. Her services have been invaluable.

Financial

You will find appended a budget covering financial estimates for the ensuing year. Every bill that has passed the School Committee this year, has been signed by a majority of the members of the Board; this provision is provided for in the State law. Moreover, every bill has been duplicated and posted at my office before being presented for payment. This makes it easy to ascertain

the financial standing at any time. It makes for accuracy with a minimum of possible errors.

The financial statement will show that the problem of transportation has increased materially this year. This seemed inevitable.

The time will soon come when the people in the Irving District will have to have more extensive transportation. There are, at present, six pupils of North Kennebunkport attending the Alewife School.

Closing

The superintendent has attempted to render service to the rural schools with as much promptitude and with as much professional worth as if your schools were in the city. An automobile and a team have both been maintained. The weather has not retarded any visits. The total number of visits in the Union last year from October 20th to June 18th was over 400 as recorded in the teachers' registers. This has given me rather accurate knowledge of the work being done. I am glad to state that progress is being made. This year has been most Successful and I wish to thank all who have made possible the work accomplished.

Respectfully submitted,
H. C.HULL,
Superintendent of Schools.

Approved by the School Committee, Feb. 15, 1927.

Mrs. Sarah W. Talbot.

Mrs. Margaret L Pearson.
